

credit name: second language programming

assignment name: change

Here are the process of my code

```
public static void main(String[] args) {  
    Scanner input = new Scanner(System.in);  
    System.out.println("Enter the change in cents: ");  
    int change = input.nextInt();  
1, input.close();  
}
```

```
public static void main(String[] args) {  
    Scanner input = new Scanner(System.in);  
    System.out.println("Enter the change in cents: ");  
    int change = input.nextInt();  
    input.close();  
    int quarters = change/25;  
    int remainder = change%25;  
    int dimes = remainder/10;  
    int remainder1 = remainder%10;  
    int nickels = remainder1/5;  
    int remainder2 = remainder1%5;  
2, int pennies = remainder2/1;  
}
```

```
public static void main(String[] args) {  
    Scanner input = new Scanner(System.in);  
    System.out.println("Enter the change in cents: ");  
    int change = input.nextInt();  
    input.close();  
    int quarters = change/25;  
    int remainder = change%25;  
    int dimes = remainder/10;  
    int remainder1 = remainder%10;  
    int nickels = remainder1/5;  
    int remainder2 = remainder1%5;  
    int pennies = remainder2/1;  
    System.out.println("The minimum number of coins is: ");  
    System.out.println("Quarters: " + quarters);  
    System.out.println("Dimes: " + dimes);  
    System.out.println("Nickels: " + nickels);  
3, System.out.println("Pennies: " + pennies);  
}
```
