

Credit Name:second lanuage programing

Assignment Name:skill building rectangle perimeter

Describe the errors you've encountered while working on this assignment. What caused the error and how do you overcome the error?

```
package skillbuilding;
```

```
public class rectangleperimeter {
```

```
public static void main(String[] args) {
```

```
double segment1 = 12.2;
```

```
double segment2 = 10.6;
```

```
double segment3 = 5.8;
```

```
double totaldistance = segment1 + segment2 + segment3;
```

```
System.out.println("The total distance of the race is: " + totaldistance);
```

}

}
